REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The provisional obviousness-type double patenting rejection over Serial No. 10/335,475 has been overcome by the terminal disclaimer filed October 14, 2004. The claimed combination of features a) through k) in independent claim 1 and features a) through l) in independent claim 24 that make up the respective nanoscale nucleic acid sequence detection apparatus in these claims is not taught or suggested by the prior art. Instant Figures 1-3, which have now been labeled "prior art", are the same as Figures 1-3 in U.S. Patents 6,447,663 (Lee et al '663). Figures 1-3 in Lee et al '663 are similar to instant Figures 6, 7, 8, 12, and 13. However, Lee et al '663 is not drawn to nucleic acid sequence detection, and, for example, lacks the instant nucleic acid nucleotide base detection means.

US 2003/0157698, US 2003/0211502, US 6,755,956, and US 6,763,705 are hereby made of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
